Suggested usage

Suggested usage during sport activities/training/competition:  
4 sachets a day during sport activities. Stir the contents of one sachet into 200 ml of water and drink it every 25-35 minutes.  
Do not exceed the recommended daily intake. Food supplements should not be used as a substitute for a varied diet. Food supplements are not intended to replace a varied and balanced diet and a healthy way of living. As the name already suggests, they are only suitable for supplementary use. A healthy lifestyle is recommended. Keep out of reach of young children.  
Store in a cool, dry place and not below 10°C.  
Not recommended for children, pregnant or breastfeeding women and caffeine sensitive people.
