

All **ROSE glasses** have a light, break-proof Grilamide frame and non-slip nose and side pads.

All **ROSE glasses sets** with exchangeable lenses are supplied with replacement lenses (orange + clear), a soft glasses case, a microfibre glasses bag (to clean the lenses) and a glasses lace.

ROSE polycarbonate lenses: tinted lenses made of break-proof polycarbonate offer 100% UV-A and UV-B protection in all tints.

smoke flash mirror (filter category 3): 10% light transmittance, for bright conditions and light-sensitive eyes; neutral tint.

orange (filter category 1): 37% light transmittance, ideal for changing light conditions, cloudy weather, dark lighting conditions, twilight, fog and rain; brighten up colours and increase contrasts.

clear (filter category 0): 92% light transmittance, ideal for foggy weather, twilight and in darkness, or as protection against dirt and insects.

All **ROSE photochromic glasses** are supplied with a glasses case, a microfibre glasses bag (to clean the lenses) and a glasses lace.

ROSE photochromic lenses: self-tinting lenses made of break-proof polycarbonate offer 100% UV-A and UV-B protection in all tints. Tinting time: approx. 10 seconds.

clear to grey: 84-22% light transmittance, suitable for all light conditions, neutral tint.

orange to grey: 53-12% light absorption, suitable for medium and bright conditions, brighten up colours and increase contrasts.

- Rose sunglasses are neither suitable for direct viewing of the sun nor as protection from artificially created UV rays. The filter category of the glasses is indicated on the lens.
- The sunglasses are not suitable to protect from mechanical impacts.
- Please clean the glasses with water and soap only or with suitable care products.
- Please store the glasses in the box included in delivery and avoid extreme changes in temperature when storing it.
- Check the lenses for scratches and stains, because this can deteriorate the sight significantly, particularly at night.
- Check the glasses for damages before the first use and after a crash.

Filter-kategorie	Beschreibung	Verwendung	Symbol
0	Leicht getönte Sonnenbrille Light tint sunglasses	Sehr eingeschränkte Dämpfung der Sonnenstrahlung Very limited reduction of sunglare	 IEC 60417-5955
