

## ATTENTION

**M** – Ritchey, Xtreme, 3T, ROSE and FSA measure the handlebar width from tube centre to tube centre.

**Ø** – Different manufacturers have different handlebar clamp diameters.

Please pay attention to the specifications!

Please note that only stems and handlebars that have the same clamp diameter can be combined. In the interests of safety, please replace aluminium stems and handlebars at least every 2 years or 10.000 km. All safety-relevant components should be replaced immediately after a fall!

**D** – Drop, measured from tube centre to tube centre

**R** – Reach, measured from tube centre to tube centre
