FIND THE ANIMAL WITHIN YOU

spine
concept
Developed by fi'zi:k

THE **SPINE CONCEPT** BEARS IN MIND THAT THE SPINES OF CYCLISTS ARE DIFFERENTLY FLEXIBLE. THIS FLEXIBILITY HAS AN IMPACT ON THE RIDING BEHAVIOUR PARTICULARLY IN SPORTIVE SEATING POSITIONS. CORRECT MOVEMENTS MAKE TWO THINGS POSSIBLE FOR CYCLING ATHLETES: MAXIMUM PERFORMANCE AND AT THE SAME TIME MAXIMAL COMFORT OVER LONG PERIODS OF TIME.

The Snake
position

Arione

The Chameleon
position

Antares

The Bull
position

Aliante

VS (VERSUS) COMPLETES THE SPINE CONCEPT BY OFFERING A SOLUTION FOR CYCLISTS WHO ARE LOOKING FOR SADDLES WITH ANATOMICALLY-SHAPED OPENINGS.
