

Upper material:

MICRO FIBRE:

Upper made from high quality microfibre material and mesh inserts. Breathable and dirt-repellent thanks to special surface properties.

Vernice:

Synthetic material with dirt-repellent surface properties. Easy to care for and hard-wearing.

Closure:

Caliper Buckle ratchet closure:

This robust closure system made from plastic uses a fine-tooth ratchet, which makes sure the shoe is absolutely secure.

Soft Instep 2 System:

Anatomical instep band for more comfort lined with soft and thermoformed material. It distributes the pressure evenly over the instep and can be adjusted on both sides. Can be combined with Caliper Buckle instep band (item nos. 1336212 + 1909896).

Soft Instep 3 System:

Anatomical instep band for more comfort lined with soft and thermoformed material. It distributes the pressure evenly over the instep and can be adjusted on both sides. Can be combined with Caliper Buckle instep band (item nos. 1336212 + 1909896).

Tecno-3 twist system:

Allows extremely fine adjustment in the front area and adapts simultaneously to the upper material and the foot. It can be opened and closed easily, even while riding. The Tecno-3 System can be exchanged simply.

Features:

Adjustable Heel Retention Device:

Individually adjustable heel adjustment. Offers perfect hold thanks to secure containment of the heel area.

Heel Cup:

Preshaped, reinforced heel cap. Reflective material at the heel cup and upper heel area.

Rubber Toe:

Integrated, rubberised toe cap for effective protection from shocks and abrasion.

Soles:

MTB SRS Sole:

Self-cleaning, highly profiled polyurethane sole with exchangeable sole sections in varying hardnesses. Compatible with all standard SPD-MTB pedal types and the SIDI aluminium stud set (not included with shoes).

MTB Competition Sole:

Self-cleaning, extremely rigid and highly profiled polyurethane sole guarantees optimal power transmission and thus prevents energy losses on the pedal. Compatible with all standard SPD-MTB pedal systems and the SIDI aluminium stud set (available separately, item no. 669020, not included with shoes).

MTB SRS Carbon-Ground Sole:

New, lightweight and ultra-rigid full carbon sole with Sole Replacement System to make the working life of the DRAKO as long as possible. Thanks to the exchangeable plastic tread inserts on the toe, midfoot and heel area, the SRS CARBON GROUND ensures first class power transmission with outstanding performance when carrying or pushing the bike. An exchangeable nylon plate to mount the pedal cleats offers protection from damages to the carbon surface. Exchangeable tread inserts for optional studs. Compatible with all common MTB pedal systems.
